

These ovens can be used for drying hygroscopic materials, pre-heating materials (in order to reduce cycle times), curing resin tools prior to forming and heating flat sheet (and then manually drape forming over a jig). As standard, the ovens come with two heavy duty steel

shelves. The plastic sheet is placed on each shelf. It may be possible to put two sheets of plastic on each shelf, providing it is fairly thin. It features a digital temperature controller and an over temperature controller, as a safety backup feature.

Options AX120

- **6 pack of additional shelves**
 - Packed dimensions on pallet: 560 x 560 x 290mm
 - Packed weight including pallet: 15kg
 - Typical delivery time: 2-4 weeks
- **Flat pack trolley**
 - Packed dimensions on pallet: 980 x 780 x 610mm
 - Packed weight including pallet: 58kg
 - Typical delivery time: 4-5 weeks

Options PF200

- **14 pack of additional shelves**
 - Packed dimensions on pallet: 780 x 580 x 410mm
 - Packed weight including pallet: 30kg
 - Typical delivery time: 2-4 weeks
- **Flat pack trolley**
 - Packed dimensions on pallet: 1130 x 780 x 590mm
 - Packed weight including pallet: 50kg
 - Typical delivery time: 4-5 weeks
